

NCCER Construction Site Safety Orientation (CSSO) Training

CAOB is pleased to offer NCCER's 12.5 hour Basic Safety course that aligns with OSHA's 10-hour program. Successful trainees will receive an NCCER Wallet Card with a CSSO credential. For more information about NCCER and its curriculum, visit www.nccer.org.

Trainees will learn the importance of safety in the construction and industrial crafts (Trades). Trainees will learn how to identify and follow safe work practices and procedures and how to properly inspect and use safety equipment. Trainees will be able to describe the safety practices associated with elevated work; energy release; and various hazards encountered on job sites.

When: TBA

Where: TBA
